

EMERGENCY PREPAREDNESS AND RESPONSE

700,000 is the number of people who will be assisted with dry food currently stocked by WFP in various storage facilities and warehouses near the camps areas for an entire month.

DRR activities aiming at mitigating risks associated with water logging, floods, landslides are being carried out at all Food Distribution Points, wet kitchens and hot meals distribution centres.

160,000 meals is the capacity of daily meals that can be delivered by ACF and Tika to the most affected populations with no access to General Food Distribution Points or unable to cook their food.

6 containers to stock High Energy Biscuits are planned to be placed in strategic location by WFP. Each container include support for **45,000** people for 3 days. Additional containers may be brought to the west part of the mega-camp.

18 e-voucher outlets are serving more than **214,420** individuals with 19 fresh food items giving refugees more dietary diversity, choice and dignity. GFD (oil, lentils and rice) are currently reaching about **628,185** people. The total population reached is **842,505** individuals. Fresh Food support is implemented by one organizations and four agencies are planning to join in early July. That works as top-up of GFD in coordination with the e-voucher scale up.

Porters and mobility: Mobile teams will be organized by humanitarian actors to bring food (cooked meals and/or dry food) to the most in need in case of emergency. Rohingya refugees will also support the deliver of assistance by bringing food to distribution points and/or to the affected population.
